

# Eco Skin Cleanser with Antimicrobial action fast acting and gentle

SteriDermal is a high performance skin cleanser. It contains pure Hypochlorous, that is nature's most powerful oxidising molecule, yet is gentle on skin & face.

Manufactured for health professionals and their patients, it is the ideal choice for dermatologists, podiatrists, clinicians and cosmetic/general dentists. Suitable for all skin types, including sensitive. Alcohol free to avoid drying skin. Gel or liquid.

Can be used in the following applications:

- ✔ before & after skin procedures
- ✔ post-surgery
- ✔ face cleanser
- ✔ foot care & hygiene
- ✔ clinical- grade hand sanitiser

## SteriDermal

## Contains nature's most powerful molecule- Hypochlorous (HOCl)

Ideal for use on both clinical (Deodorising & Sanitising) as well as treatment procedures (Microdermabrasion, Facial Peels, Dermaplaning, Microneedling) SteriDermal provides natural and effective protection while being gentler on the skin, making it a safer alternative. Tested to EN1500

“A wonderfully natural and alcohol-free product for clinical professionals. Leaves patient’s skin cleansed and protected”

*Davinder Raju - Founder Greener Dentistry*

### Non-irritating & non-sensitising

Carefully formulated to be gentle on the skin, using hypoallergenic ingredients to ensure a soothing experience for even the most sensitive skin types. Effective results without compromising skin tolerance.

### pH neutral

Neutral and balanced, helping to preserve the natural pH balance of the skin. Gentle and compatible with all skin types, minimizing the risk of irritation or disruption to the skin's protective barrier.

### Non-cytotoxic & non-mutagenic

No harmful effects on living skin cells or pose any risk to their cellular or genetic integrity.

### Deoderises & sanitises

Essential in the processes of maintaining cleanliness, hygiene, and overall well-being. Targets the source of the odor, rather than merely masking it.

Available in 100ml and 250ml spray; 1L and 5L refill bottles.

## About Tec-Safe

Tec-Safe is at the forefront of innovation to enhance infection control within dental and other clinical environments, with a particular focus on both sustainability and biofilm control. By developing new technologies exploiting the benefits of nature's most powerful disinfectant, CHL's proven range of advanced infection control solutions provide complete protection for you, your practice and your customers.
